Dear Mr. Gaqo,

I have received your letter of the twelfth of this month. It does not seem that there is any possibility to have a subvention for Mr. Janaq NEPAKXI as the budget is very limited. He might receive a support of 40 dollars per month in execution of chapter VI of the memorandum. On the conclusion of the discussions with the friends on charge of the finances, I have sent yesterday a letter to Abas KUPI as Vice-Chairman. It has been very difficult for me to settle the matters with the employees of the account office, especially regarding the maintenance of the funds of chapter I c. I have received a positive answer. I have signed the cheque in suspense for the month of February. I have as well signed a letter addressed to the Secretary.

As you will understand from the letter I sent yesterday to Mr. KUPI, the list of the deserving persons who need assistance in execution of Chapter VI of the budget will be fixed. About this you should collaborate with Nexhat PESHPERDJA and Theodor PAPALILLO. The list will be sent here for approval. You should not lose from mind the subvention for F. DINE, H. KUMLETI, F. PERVISI. You will certainly understand what I am feeling. These are humanitarian reasons to be placed at the first rank, but, secondly, you should not forget that they will be the political friends in the last events of the future.

Dear Mr. Gaqo, I pray you sent me an objective report on the following points:

1. What are the reasons which have made the people of the BKI send in blank sheets during the election of the Chairmanship?
2. Which are the factors which have caused miscomprehension in the election of the Administrative Secretary, how has taken place the coalition between the BKI, Ali Elissura, Muredin Flora, Said Kryeziu and many independents. Ali Elissura places all responsibility upon the intransigency of Nexhat Peshkepiga and Th. Papalilo. Up to where is this true?
3. In which conditions has taken place the publication of both articles of the "Aloa le Libre"? It is said that these articles have been written by Mustafa Kruja and that the second one has been arranged by the others. I don't believe Mustafa Kruja to have done such. In case he has, the essence of the article has been deformed. In this I see the finger of Koliqi and Eduard Lipo and further Said Kryeziu. To speak the truth I am desperate.

Albania is a small country. We know the role of the people in the past. And this is also the role for the future.

One of the reasons which have led us to take the responsibility of the Chairmanship of the Organized Committee, has also been the conviction and necessary conviction to take away the EMI from foreign influences not only for the past, but for the future, although the EMI was a part of our former known regime.

Please write to me about this point with the documentation you may have.

Now I will speak of something else. There is the problem of the replacement of Kope Guna. Ali Kishure has put forward the candidature of Haxhiu HEGONA. He later has refused. He said that this person should be an Orthodox. There might have been other persons.... Many are thinking of Halim HEGONA. N. Bushkapija and an. Parolilo are also of this opinion. I am reserved. I have no expressing opinion. I am waiting. I am more for Kope Guna. He is very young in age. He is 3 or 4 years younger than Ndue Gjomerakaj. But in the circles of the Committee we should first consider his role. The election of Halim HEGONA depends on the problem of the next period in New York, according to the former regulation of the EMI. The election of Halim HEGONA resolves this automatically. But should it be better or resolved so quickly and automatically? These are problems upon which I have given my judgement as old experienced man, experienced in old and new politics.

I pray you to study this matter too, judge it properly and let me know your opinion. I want to have a clear idea and won't upset the problems. I believe it is best to suspend this until the May elections when I will be able to come. I see nothing urgent as for the replacement of Kope Guna.

I am expecting to meet your opinion.

I might write to you next week about something else. Collaborate with Nexhat and Enxhad.

Heartful regards  
H. DOSHI

P.S. Here I receive my letters absolutely un-opened. I don't know if it the same for you? Let me know! Can you send me also a Code of ethics?
